### COMMISSION NAMES DEVELOPMENT BOARD

At Regular Session Held Last Night Twelve Men Were Appointed To serve City

With mayor pro tem Phil presiding and Commissioner Rivins in attendance at the regular weekly meeting of the City Commission held last night, the most important action of the evening was the appointment of twelve men who are to compose the board of city development for the coming year, according to the provisions of the city charter.

The gentlemen appointed are: J. E. Bryant, Frank White, D. D. Dewing, J. L. Hardin, Tom Currie, Jno. McKeight, Earl Cobb, C. O. Wofford and M. J. B. Jackson.

None of these men need any introduction to the people of Amarillo. Most of them were members of the directorate of the chambers during the past year, and the excellent results of the work of that organization during the past twelve months are attributable to their intelligent and an able direction.

At an early day the newly appointed board of city development will meet for organization, election of a secretary and the framing of plans for future work along Chamber of Commerce lines.

At last night's meeting of the Commission a board of equalization was also appointed, the following gentlemen composing the same: W. A. Ackers, A. Eberstadt, A. L. Summers. The compensation of the members was fixed at \$3 per day.

A motion was passed instructing the city manager to enforce the collection of all delinquent city taxes, and if necessary to institute suits against any and all such delinquents. An ordinance was passed defining certain nuisances and prescribing penalties.

Some current bills against the city were audited and ordered paid, after which the commission adjourned subject to call of the city manager in case of urgent necessity.

J. H. Goulds, who has been confined to his home by sickness for some days, expects to be able to attend to his office duties today.

J. H. Clayton, of Floydada, who has been in a very serious condition and underwent a delicate surgical operation at a local sanitarium last Saturday, is showing signs of improvement and best hopes for his recovery are entertained by attending physicians.

Mrs. J. W. Ambrose, who submitted to a surgical operation in a local sanitarium last week, has so far recovered that she will be able to return to her home at an early date.

### Here From Miami

R. F. Talley, a farmer-stockman of the Miami vicinity, spent Tuesday with friends in Amarillo. Mr. Talley is one of the prosperous men of the north Panhandle, having found the business of stock raising and farming a successful combination. He has just closed a contract for the sale of this year's crop of his calves at \$20 per head, and he has 400 acres of the finest kind of wheat just about ready for the reaper. The high cost of living does not seem to bother the Miami farmers very much.

### NEW INTEREST CAUSED BY CONGREGATIONAL SINGING

Christian Church Meetings Adopt Method of Variation in Hymns To Rouse New Interest

A feature of the regular meeting at the First Christian Church last evening was the selection of songs to increase the interest in the congregational singing. The songs used were familiar but different. The change gave a variety and renewed interest in this part of the worship.

Rev. C. J. Kellner, pastor of the Congregational Church, and Rev. Johnson, of the First Presbyterian Church were among those who attended the service.

"A Prophet Shall the Lord, Your God Raise up Into You Like unto Me, Him Shall Ye Hear," was the text from which Dr. Kellner delivered one of the best sermons of the series thus far.

The deliverance of the Israelites from bondage was made typical of our deliverance from the bondage of sin. Egypt, the Red Sea, the wilderness, the River Jordan and the promised land were made typical of the world, baptism, the church, death and heaven.

"Habit is a cruel taskmaster," says Dr. Kellner, "as sinners we become absolute slaves of habit. The first lie grates upon the conscience. Later it may become easier to tell a lie than to tell the truth. So with the habits of sinning and of intemperance. If we take Jesus Christ into our lives we can deliver us out of bondage. As Moses was selected to lead the children of Israel out of bondage so Christ came into the world to be our deliverer."

"It was necessary for the people to believe in Moses. The miracles that he performed were his divine credentials. The first step to get out of sin is faith in Jesus. The faith that purifies the heart is that faith that gives all we have to Jesus."

"Faith that saves, reveals Christ without question. The greatest difficulty is to get men to start to repent, to turn about."

"If any man is in Christ he is a new creature. In Christ there is no condemnation."

"Keep your eye on the Bible. It is the cloud by day and the pillar of fire by night that is to lead you from the bondage of sin."

The services were interrupted near the close by the failure of the electric lights, which especially interfered with the singing.

One more came forward and made the confession.

The membership of the church was specially urged to attend the forenoon services.

A baptismal service was conducted at 4 o'clock yesterday afternoon and it was announced that there would be baptismal services again at the close of the service tonight.

Mr. E. Byars, Sec., Noble County Oil and Gas Company, Perry, Okla.

Gentlemen: I note in the Perry paper that you have machinery on the northeast quarter Sec. 19, Walnut township, and will drill a well to the depth of 3000 feet unless oil is struck sooner. I also note you are selling lots and giving acres as bonus. I would be pleased to know what a four to ten acre lease will cost me. Will say I consider your location the best in Oklahoma. I spent several hundred dollars trying to secure this same location for some Pittsburgh, Pa., parties who wanted me to drill a test well, I was unable to secure this on account of several farmers all contending for the well to be put down on their places. So I had to give it up.

I have quite a lot of friends who are in position to invest a few hundred dollars in your proposition and will advise them to do so as I am almost sure you will get a good producer at that location but understand no man can tell for sure. I have been drilling and prospecting for oil for twenty years, have been in all the fields in the United States of any note and am convinced that this part of Oklahoma bids fair to be the best of all of them and think you have the best chance to bring in a large production and also get a light gravity oil which should be worth quite a bit more on land.

Let me know regarding the lease proposition, think you can do quite a lot of business here if you care to come up. Yours truly, N. L. SYBERT.
